Reach out touch everyone.

**Churchlinc<sup>®</sup> Church Management System**  
Harnessing the power of the web to help you building a stronger, connected and organized church.

“ Get organized, get connected, get back to what you love the most helping people ”

## Dynamic, Relevant, and Secure Web Content

**ChurchLinc®** is an enterprise-level web-based church management system. With **ChurchLinc® Church Management System** you can utilize your website as an integral part in the core functionality or your organization.

Quickly and consistently manage your web content from anywhere via an intuitive online interface. This provides a single point of access to information for any authorized user to distribute information that is highly dynamic, relevant, and secure, without the need for specialized web publishing skills.

### With ChurchLinc® you can...

Maintain accurate member profiles that can be updated easily online by individual users or church staff.

Communicate your message effectively through online resource centers that allow you to upload, categorize and attach notes to video and audio sermons.

Keep your church informed through online calendars and newsletters.

Increase revenue through secure easy to use and track bookstore and donation modules.
